This KID was produced on 28 April 2025.

What is this product?

Type:

This product is a UCITS fund.

Objectives:

The Fund aims to achieve a target average return of 1-1.25% over the J.P. Morgan Asian Credit Index (Total Return, USD) ("Benchmark") before fees over a market cycle (typically 3 years) by primarily investing in hard currency (defined as USD, EUR, GBP, JPY, CHF) denominated debt issued in Asian countries. There can be no guarantee that the Fund will ultimately achieve its investment objective and capital invested is at risk. The Fund is managed with a disciplined approach which begins with analysis of the market environment and the global economy. Investment selection is the result of fundamental analysis in an effort to identify issuers that are believed to be undervalued and have strong credit quality. Investments may be made in investment grade, high yield or unrated debt securities. Investment grade securities are highly rated securities, generally those rated Baa3, BBB or above by one or more recognised rating agencies. High yield bonds have a lower credit rating because they carry a higher risk of not being paid back. They typically offer a higher income to make them attractive to investors. Under normal market conditions, the Manager anticipates that the Fund's average interest duration will be within the range of +1.5 years and -1.5 years compared to the Benchmark.
The Fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR.
Income will be rolled up into the value of your investment.

Term:

The Fund has no fixed maturity date, however it may be terminated in certain circumstances, as described in the Prospectus in the section "Termination of Portfolios or Share Classes".
The shares may be exchanged for shares in another sub-fund of NBIF in accordance with the terms of the Prospectus. Charges may apply.
Shares in the Fund can be bought or sold on any day defined as a Business Day in the Supplement.
NBIF is established as an umbrella fund with segregated liability between sub-funds under Irish law.
Brown Brothers Harriman Trustee Services (Ireland) Limited (the "Depositary") is appointed as the depositary of NBIF.
You can obtain copies of the Prospectus and the latest reports and accounts for NBIF free of charge in English, German, French, Italian and Spanish, along with the latest published prices of shares and other information on the Fund, free of charge from Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator"), 30 Herbert Street, Dublin 2, Ireland, D02 W329.

Benchmark:

The Fund is actively managed and does not intend to track the Benchmark, the J.P. Morgan Asian Credit Index (Total Return, USD), which is used for performance comparison purposes. The Fund's investment policy restricts the extent to which the Fund's holdings may deviate from the Benchmark. This deviation may be significant.

Intended retail investor:

This Fund may be compatible with the needs of investors seeking a fund to deliver income and/or capital growth with an investment horizon of 4 years or more, as part of a diversified portfolio of investments. The Fund is a low risk product and investors should consider this when deciding the mix of their portfolio of investments. Investors who are unsure that they have the knowledge and experience to make informed investment decisions about this Fund or to construct a diversified portfolio should seek professional investment advice. The Fund is unlikely to be compatible with the needs of those investors seeking a single investment, or to achieve a specified return by a particular date.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 4 years.
The summary risk indicator is a guide to the level of risk of this Fund compared to other products. It shows how likely it is that the Fund will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Fund as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity of NBAMIL to pay you.
Beside the risks included in the risk indicator, other risks may affect the Fund's performance. Please refer to the Prospectus and/or Supplement at www.nb.com/en/gb/legal-documents. The Fund does not include any protection from future market performance so you could lose some or all of your investment. If we are unable to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund/representative portfolio over the last 10 years.

The stress scenario shows what you might get back in extreme market circumstances, however, markets could develop very differently in the future.

Recommended Holding Period: 4 years			
Example Investment: USD 10,000			
Scenarios Minimum: There is no minimum guaranteed return and it is possible to lose all invested capital.		If you exit after 1 year	If you exit after 4 years (recommended holding period)
Stress	What you might get back after costs Average return each year	6,810 USD -31.87%	7,950 USD -5.58%
Unfavourable¹	What you might get back after costs Average return each year	7,950 USD -20.50%	9,100 USD -2.34%
Moderate²	What you might get back after costs Average return each year	10,410 USD 4.13%	11,240 USD 2.97%
Favourable³	What you might get back after costs Average return each year	11,510 USD 15.11%	12,810 USD 6.39%

¹ This type of scenario occurred for an investment between October 2019 and October 2023.

² This type of scenario occurred for an investment between March 2016 and March 2020.

³ This type of scenario occurred for an investment between February 2016 and February 2020.

What happens if NBAMIL is unable to pay out?

Investors may face financial losses as a result of the default of the Fund, NBIF, NBAMIL or any of the service providers appointed to the Fund, including the Sub-Investment Managers (or their affiliates), the Administrator, the Depositary, or a trading counterparty. Any such losses are not covered by any investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this Fund may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund and how well the Fund does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0% annual return). For the other holding period, we have assumed the Fund performs as shown in the moderate scenario and the investment is USD 10,000.

Investment: USD 10,000	If you exit after 1 year	If you exit after 4 years
Total costs	16 USD	71 USD
Annual cost impact (*)	0.2%	0.2%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.1% before costs and 3.0% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	The impact of the costs you pay when making your investment. This is the most you will pay, but you could pay less. This includes the costs of distribution of the Fund.	0 USD
Exit costs	We do not charge an exit fee for this Fund, but the person selling you the Fund may do so.	0 USD
Ongoing costs taken each year		If you exit after 1 year
Management fees and other administrative or operating costs	The impact of the costs that we take each year for managing your investments.	15 USD
Transaction costs	The impact of the costs of us buying and selling underlying investments for the product.	1 USD
Incidental costs taken under specific conditions		If you exit after 1 year
Performance fees	This share class does not charge a performance fee.	0 USD

How long should I hold it and can I take money out early?

Recommended holding period: 4 years

The Fund is designed to be held over the medium term and we recommend that you hold this investment for at least 4 years. Shares in the Fund can be bought or sold on any day defined as a Business Day in the Supplement.
