Purpose: This document provides you with key information about this investment product and its sustainability credentials. The information is required by law to help you understand the sustainability profile of this product and to help you compare it with other similar products.

Janus Henderson Strategic Bond Fund | LEI: 213800BDR6RVE3HQ7S77

A sub-fund of Janus Henderson UK & Europe Funds, a UK OEIC managed by Janus Henderson Fund Management UK Limited.

This product does not have a UK sustainable investment label as it does not have a specific Sustainability Goal, but it does include environmental and social factors in its investment process in a binding manner beyond the integration of financially material sustainability risks. Sustainable investment labels help investors find products that have one of the sustainability goals covered by the sustainable investment labels available in the UK.

This document is dated 2 December 2024.

Fund Objective

The Fund aims to provide a return, from a combination of income and capital growth over the long term.

Performance target: To outperform the IA Sterling Strategic Bond sector average, after the deduction of charges, over any 5-year period.

Sustainability Approach

The corporate bond portion of the Fund maintains a lower carbon intensity and/or footprint than its relevant reference universe on a monthly basis.

The Investment Manager applies screens to avoid investing in issuers involved in the following activities:

Excluded Activity	Exclusionary Criteria
Controversial weapons	See Further Details section
Failure to comply with the UN Global Compact Principles	≥10% of revenue
(which cover matters including, human rights, labour, corruption, and environmental pollution)	≥10% of revenue
Oil and gas generation and production	≥10% of revenue
Oil sands extraction	≥10% of revenue
Shale energy extraction	≥10% of revenue
Thermal coal extraction	≥10% of revenue
Power generation	≥10% of revenue
Arctic oil and gas extraction	≥10% of revenue
Tobacco	≥10% of revenue
Fur	≥10% of revenue
Adult entertainment	≥10% of revenue
Gambling	≥10% of revenue

The Investment Manager applies screens to avoid investing in bonds issued by governments involved in the following activities:

Excluded Activity	Exclusionary Criteria
Failure to score as "Free" by the Freedom House Index (a report on political rights and civil liberties)	Any score other than free
Failure to ratify the Paris Agreement	Any failure*

*Under normal market conditions, the Investment Manager will also exclude investing in bonds issued by governments that have not ratified the Paris Agreement.

Exclusionary screens are applied using third party data at the point of investment and are monitored on a continuous basis. If an investment becomes ineligible based on exclusionary screens it will be divested within 90 days.

Exclusionary screens are applied to direct investments and single name derivatives (complex financial instruments) but are not applied to other derivatives or investments through collective investment schemes.

The Investment Manager may invest in companies that would be excluded by the screens if the Investment Manager believes, based on its own research and as approved by its ESG Oversight Committee, that the third-party data used to apply the exclusions is insufficient or inaccurate.

Investor Stewardship

The Investment Manager has engagements (for both insights and action) with companies the Fund invests in. Engagements include a wide range of topics including strategy, capital allocation, performance, risk, management succession, board composition, corporate governance and environmental and social issues as applicable. The Investment Manager also supports several stewardship codes globally and is a signatory to the UK stewardship code.

Sustainability Approach (continued)

Key Performance Indicators

Whether the Fund has invested in line with its sustainability approach will be measured with reference to:

- Paris Agreement
 - ▶ Ratification of the Paris Agreement on Climate Change (“Paris Agreement”) by sovereign issuers
- Carbon intensity of the Fund compared with its benchmark
 - ▶ Measured as Scope 1 + Scope 2 greenhouse gas emissions normalized by sales, which allows for comparison between companies of different sizes. Scope 1 emissions are those from sources owned or controlled by the company, typically direct combustion of fuel as in a furnace or vehicle. Scope 2 emissions are those caused by the generation of electricity purchased by the company.
- Overall UNGC Principles and OECD MNE (Multinational Enterprises) status of the Fund
 - ▶ UNGC compliance covers matters including human rights, labour, corruption, and environmental pollution.
- ESG exclusion status
 - ▶ The exclusion of controversial activities deemed by the investment manager as having the potential to cause material negative environmental or social outcomes.

Sustainability Metrics

For the 12 months period up to 30 September 2024:

Metric	Performance
Paris Agreement	At all times during the period the sovereign issuers met the conditions of the Paris Agreement on Climate Change.
Carbon intensity of the Fund compared with the ICE BofA Global Corporate & High Yield Index (Proxy for IA Sterling Strategic Bond Sector Average), (Tons CO2 emitted/\$M sales)	Fund carbon intensity was 22.5 vs 234.0 for the proxy index (calculated as an average of each quarter).
Overall UNGC Principles and OECD MNE status of the Fund	At all times during the period, the Fund did not hold any companies that were in breach of the UNGC principles.
ESG exclusion status	At all times during the period, the Fund did not hold any companies in breach of the exclusionary screens.

Third-party data is primarily sourced from MSCI. Data coverage for the metrics described above is obtained where it is reasonably practicable to do so but may be incomplete and coverage differs by asset class, region and size of issuers. Datapoints with coverage of less than 60-70% may be less informative for understanding product risks and opportunities.
