## Sustainability Label

Sustainable investment labels help investors find products that have a specific sustainability goal.

Sustainability Focus funds and Investment Companies invest mainly in assets that focus on sustainability for people or the planet.

## Sustainability Objective

The Fund aims to grow, over 5 years by investing in companies that **provide environmental and/or social benefits**. For these purposes, positive environmental and social benefits are defined through alignment with one or more of the Fund's pre-defined Sustainable Investment Pillars: **Sustainable Energy**, **Sustainable Food, Land**, and **Forestry**, **Waste**, **Water**, and the **Circular Economy**, **Health and Education**, and **Digital World**. These benefits are provided by companies which have:

a good '**footprint**' i.e. the environmental and social impact of their day-to-day operations and

a good '**handprint**' i.e. the scope of the goods and services to actively decarbonise an economic sector or provide a positive social outcome.

**Note:** The Fund only invests in companies that meet the **Sustainable Investment Standard** which might render it less diversified than other market indices. Any reduction in investment universe not based on financial considerations could limit financial returns or increase financial risks. Additionally, pursuing the sustainability objective could result in unintended impacts. For example, low-carbon energy projects, core infrastructure, and digital assets can disrupt ecosystems, increase resource strain, and cause community tensions. For more details and to learn how the Investment Manager mitigates these risks, see the Fund prospectus.

## Sustainability Approach

### Investment Policy and Strategy

To be eligible to enter the Fund, each security must:

1. Pass a positive, revenue alignment screen,
2. Pass a norms-based, footprint screen, and
3. Meet the Fund's exclusions criteria.

### Positive Screen

Each security must meet the **Sustainable Investment Standard** ("the Standard"). This entails the alignment of more than 60% of the security's revenues with the **Fund's Sustainable Infrastructure Sectors**:

	Sustainable Energy	Companies actively contributing to <b>global decarbonisation</b> through <b>sustainable energy</b> generation, storage and usage.
	Sustainable Food, Land, and Forestry	Companies involved in the <b>sustainable</b> production of <b>food</b> , use of <b>land</b> , <b>agriculture</b> or <b>forestry</b> and those focused on the protection of <b>biodiversity</b> .
	Waste, Water, and the Circular Economy	Companies that are actively involved in delivering sustainable <b>water</b> and <b>waste solutions</b> and companies that meaningfully contribute to sustainable <b>resource management</b> .
	Health and Education	Companies that own property assets that contribute towards the delivery of sustainable, high-quality and inclusive services, such as <b>social housing assets</b> and <b>medical facilities</b> .
	Digital World	Companies that support the transition to a <b>digital economy</b> in a <b>sustainable</b> and <b>socially inclusive</b> way.

### Norms-based Screen

In addition, each security must meet at least 2 out of 4 of the Fund's footprint Key Performance Indicators ("KPIs") thresholds:

- A **UN Global Compact compliance** score of at least **70%**,
- A **board gender diversity** of at least **30%**,
- At least **one** of the Fund's key **environmental policies**, and
- **Sustainability-linked remuneration**.

## Exclusions Criteria

The Fund will not invest in securities that derive **more than 10%** of their revenues from:

- The extraction or production of shale gas or oil sands.
- The extraction, refinement, or energy generation of thermal coal or oil.
- Animal testing for purposes other than regulated healthcare.
- The extraction or refinement of natural gas.

## Stewardship

The Investment Manager is committed to **integrating stewardship** into the investment process to support the Fund's sustainability objective. The Investment Manager actively monitors and engages with investee companies to **protect long-term shareholder interests**, utilising its shareholder rights to **vote on all resolutions** at company meetings. Escalation is an integrated part of the Investment Manager's stewardship processes. An annual Stewardship Report is published, detailing the Investment Manager's stewardship activities.

The Investment Manager will monitor and engage with the companies in which the Fund invests to ensure ongoing alignment with the KPIs. If the Investment Manager determines that an investee company no longer meets the Standard, it will **cease further investments** in the company and will **divest** from the company in an orderly manner.

## Other Investments

The Fund may also invest in cash for liquidity and cash flow purposes and to pay Fund expenses and redemptions. The Fund may invest in certain financial contracts (derivatives or forward transactions) for efficient portfolio management (including hedging). At all times, at least 70% of the total Fund's assets will be invested in accordance with the Sustainability Objective.

## Sustainability Metrics

The Investment Manager uses the following to monitor and evaluate the Fund's performance and progress towards achieving its objective. Additionally, on a security level, as part of the **Sustainable Investment Standard**, each company must align with at least one **Handprint KPIs** and two **Footprint KPIs**. See the Fund prospectus for more details.

	Handprint KPIs	Additional Low-carbon Energy Generated ( <i>GWh</i> )      Installed ( <i>GW</i> )		Emissions Avoided ( <i>MtCO2e</i> )	Number of Social and Digital Assets Provided <sup>1</sup>	Average Sustainable Infrastructure Sectors Revenue Alignment <sup>2</sup>
	FY24	37,233	0.6	202	2,359	93%
	Footprint KPIs	Holdings with one of the Fund Environmental Policies <sup>2</sup>		Average UNGC Compliance Score <sup>2</sup>	Average Board Gender Diversity <sup>2</sup>	Holdings with Sustainability-linked Remuneration <sup>2</sup>
	FY24	100%		90%	37%	75%

1. Assets Providing Access to Healthcare, Education, Digital Connectivity, or Community Amenity Services.  
2. Weighted average calculated using fund holdings as of 18/02/2024.
